Assistant Professor, Social or Affective Neuroscience. The Department of Psychological and Brain Science at Dartmouth College expects to make a tenure track appointment at the rank of Assistant Professor (entry-level or advanced) effective July 1, 2014. We seek an individual who has exhibited excellence in research and is able to provide high-quality teaching at the graduate and undergraduate level. We are particularly interested in someone who complements our strengths in human regulatory systems (e.g., self, social, or affect regulation). The department is housed in a state-of-the-art research and teaching facility that includes a dedicated research MRI scanner for brain imaging research. With an even distribution of male and female students and over a quarter of the undergraduate student population members of minority groups, Dartmouth is committed to diversity and encourages applications from women and minorities. Please submit via Interfolio: a letter of application addressed to Todd F. Heatherton (Chair, Search Committee), a curriculum vita, and contact information for three references to https://secure.interfolio.com/apply/22012 and click "Apply". Review of applications will begin October 1, 2013 and continue until the position is filled.
