The Sophomore Summer Venture has one of the most unique and challenging experiences: to lead a team. Building a new project from the ground up has called upon my leadership skills. Over the summer, I’ve been able to create a brand, secure funding, set up a business plan, and develop a vision. I’ve had the opportunity to apply some of the skills I’ve gained in my coursework and I’ve been able to work with a diverse team of students who are passionate about what they’re doing. I’ve learned a lot about the importance of teamwork and collaboration.

The Sophomore Summer Venture is a fantastic opportunity for students to engage in meaningful work and gain valuable experience in a variety of fields. It’s a great way to get hands-on experience and develop skills that will be useful in future endeavors.
